

What are battery protection packs?

Battery protection packs can be divided into two categories. The first category is the Protection Circuit Module (PCM) it is also known as Protection Circuit Board or (PCB), And the other type is the Battery Management System (BMS). In the lithium battery, the battery management system is an essential part of it.

Do lithium batteries need a Protection Board?

Protection boards for lithium batteries offer monitoring protection. Low-voltage lithium batteries require a protection board. When using high-voltage lithium batteries, a battery management system (BMS) is typically chosen since these systems contain more functions for monitoring the state of the battery pack.

What is the main function of a battery protection board?

The main function of the protection board is to monitor the state of charge (SoC), temperature, voltage, current, and state of health (SoH) of the battery pack. The MOS is controlled by the control IC. The MOS is always turned on during normal functions.

Can you get a Protection Board with a custom battery pack?

You can also obtain custom-built protection boards with your custom battery packs. This arrangement is ideal since the battery manufacturer will have a greater understanding of the protection needs of the custom pack that they design for the customer. So, the protection board would cater to these design requirements.

What is the size of the battery protection board?

The size of the Battery Protection Board is 5*3*1.7cm or 2.0*1.2*0.7in. This is an under-voltage switch module used to turn off the power of the load in the event of the voltage dropping below a set value. When the battery voltage increases to a set value, the module will automatically turn on the load again.

What is 2S Li-ion 8A 7.4v Protection Board?

2s Li-Ion 8A 7.4V Protection board is a small PCB mounted Lithium Battery protection module. This small and smart protection module comes with various features like Short-circuits, Over-charge, Over-discharge, and Over-current protection. It is straight forward to install and convenient to use in all your DIY portable projects.
