

What are the benefits of solar energy?

Solar energy has many perks, from saving money to helping the environment. Here's a quick breakdown of the main advantages. Solar energy can slash your energy bills. Solar energy is more affordable and sustainable compared to other sources.

Why should you install a solar energy system?

Solar panels draw their energy from the renewable resource that is our sun. Not only does installing a solar energy system reduce your reliance on fossil fuels (which improves your air quality and protects the environment), but it can also save you \$25,000 to over \$110,000 over its lifetime.

What are the benefits of installing solar at home?

Whether you're looking to save money on your electricity bills or do your bit for the planet, get inspired by the range of fantastic benefits to installing solar at home. Reduced electricity costs. Generating your own power at home could help you save on your electricity bill by reducing the amount of energy you draw from the National Grid.

What are the advantages and disadvantages of solar energy?

Here's a quick breakdown of the main advantages. Solar energy can slash your energy bills. Solar energy is more affordable and sustainable compared to other sources. As we use up finite resources like fossil fuels, their prices will rise, making solar a great alternative for your wallet and the planet.

Are solar panels a good investment?

Solar panels on their own offer lower electricity bills and clean energy. But they're at their best when combined with other renewable technologies. Store excess solar electricity in the day that you'd have otherwise lost. Use this stored energy to avoid more expensive tariff periods.

Can solar panels reduce your electricity bills?

Not only can solar panels reduce your electricity bills, but they may even bring in revenue. That's a better solution to your bills than using a drying rack instead of a dryer. This is because it's possible to sell excess solar energy back to the national grid. You can do this thanks to the Smart Export Guarantee (SEG).
