

Is Morocco a good place to buy a battery?

Morocco is also home to 70 percent of the world's reserves of phosphate, a key material in the cheaper, lower-range batteries produced primarily by Chinese companies.

Will Morocco set up an electric vehicle battery plant?

RABAT, June 1 (Reuters) - Morocco's government and China-based battery maker Gotion High Tech have agreed to look into setting up an electric vehicle battery plant in the kingdom with up to \$6.3 billion in eventual investment, Morocco's investment agency said.

Are EV batteries growing in Morocco?

Demand for EV batteries is growing outside and within Morocco, where Citroen has a production capacity of 50,000 supermini electric cars. Last year, the automotive sector topped Morocco's industrial exports with 111 billion dirhams (\$11.1 billion), up 33% from last year.

Will Morocco invest \$6.3 billion in a battery plant?

Our Standards: The Thomson Reuters Trust Principles. Morocco's government and China-based battery maker Gotion High Tech have agreed to look into setting up an electric vehicle battery plant in the kingdom with up to \$6.3 billion in eventual investment, Morocco's investment agency said.

Will China's battery market drive more battery manufacturers to invest in Morocco?

Kevin Shang, senior battery analyst at energy consultancy Wood Mackenzie, told AGBI that saturation in the Chinese market will also drive more of its battery manufacturers to consider investing in Morocco. "In the next few years, battery supply will start outstripping demand in the Chinese market," said Shang.

Can Morocco become a centre for electric vehicle manufacturing?

Workers at a Mitsubishi factory in Japan install an EV battery. Morocco has 70% of the world's phosphate, a vital material for batteries. Morocco's plan to become a centre for electric vehicle manufacturing has received a boost from two Chinese companies, as the kingdom benefits from the cooling relations between Beijing and Washington.
