

The equipment is particularly suitable for shell punching processing of a flexible battery shell, and has high social use value and application prospect.

TOB-SCX-300 Manual Aluminium Punching Machine is used for lithium polymer battery/ pouch cell cup forming in the production line of making pouch cell batteries.

The utility model provides a production of battery box aluminum hull is with tensile mould of punching press which characterized in that: including supporting shoe (7), the top fixedly...

Looking for punching shell factory direct sale? You can buy factory price punching shell from a great list of reliable China punching shell manufacturers, suppliers, traders or plants verified by ...

The invention discloses a soft package lithium ion power battery packaging film shell punching machine which comprises a box body, wherein the tops of inner walls of two sides of the box ...

The utility model discloses a kind of half-closed two point high speed battery steel shell punching production forcing presses in forcing press field, including fuselage, motor is installed on the ...

The 7th Shenzhen International Lithium Battery Technology Exhibition in 2024 ... laser welding machine, battery assembly equipment, charging equipment, inkjet printer, glove box, labeling ...

The utility model discloses a steel shell punching device for producing new energy battery equipment, which belongs to the technical field of new energy battery equipment production ...

The invention relates to the technical field of battery production equipment, provides efficient shell punching equipment for battery shell production, and aims to solve the problems that during ...

The invention discloses a one-outlet multi-cup punching die for a battery shell cup punching machine, which comprises a die support, a feeding seat and a coiled material feeding wheel, ...

Power Battery Equipments - Offering Mild Steel Pneumatic Battery Box Hole Punching Machine, Size: Ns40 To It500, Production Capacity: 500piece/day at Rs 50000/piece in Bengaluru, ...
