

Which car battery chargers do you stock?

We stock well-known brands including Einhell, Streetwize, Ring, Vivanco and SIP Industrial. View a range of car battery chargers to ensure you're never left without power with a varied suitable adjustment for 6 to 12V vehicles.

Which car battery charger should I buy?

Purchase either of the two versions, one suitable for 3-60Ah batteries or another with a jump start function suitable for 30399Ah batteries. Other car battery chargers include the IP56 safety weatherproof Ring Smart battery charger and SIP Chargestar Smart 18 or T27 car battery chargers with built in charge.

Does a ring battery charger recondition a battery?

As part of its seven-stage charging process, this Ring Automotive charger will also recondition your charger back to optimum performance. This battery charger from the AA can charge all 6V and 12V lead-acid and gel batteries.

What are the different types of car battery chargers?

From trickle chargers to battery boosters, there are plenty of options to meet your car battery charging requirements. There are even car battery chargers that can help renew battery performance and solar battery chargers that harness the sun for a free trickle of electricity.

What is the difference between a car battery charger and a maintainer?

A car battery charger is designed to recharge a vehicle's battery back to a healthy state, whereas a maintainer detects and optimizes a battery's state of charge. Are battery chargers/maintainers the same as trickle chargers? No, but they are very similar.

What is a smart battery charger?

This example from Ring Automotive is another smart battery charger. This model delivers current to revive your battery back to optimum performance. Once fully charged, this battery charger will enter its maintenance mode so you can plug in and forget until you need to drive again.
