Who makes solar street lights in China?

SLD, the top 10 solar street light manufacturer, has been in the business of solar led light in China for 12 years, with a professional technical team to provide solar street lighting solutions for various inquiries. Let a true industry veteran provide you with high-quality solar-powered street lights.

Why should you choose a solar street light manufacturer?

Owing to the optimized supply chain and scale production capability, we, as a solar street light manufacturer offer very competitive rates as well as laudable lead-time and shipment control to match your time limit from projects. We have a professional and efficient team of qualified engineers and skilled workers that will handle your order.

Are solar street lights maintenance free?

The solar street lights are designed to be essentially maintenance free. In regions with frequent rain, the tilt angles of the solar panels allow for self cleaning of dust. However, in places where rain is infrequent, periodic manual cleaning of the solar panels may be required.

What factors affect the price of solar street lights?

Regularly, here are some factors that can affect the price, such as the quality of the components used, the efficiency of the design, and the scale of production. For integrated solar street lights come in a variety of shapes, solar panel sizes, battery capacity and quality, that make the big difference on price. What is your production capacity?
