

How much do solar panels cost in the UK?

The most common type of system is the 4kW solar system, which costs between £5,000 - £6,000. It can save the average household about £660 per year, provided that they have a decent number of sunlight hours and are installed on a south-facing roof. In 2025, the price of solar panels in the UK can vary depending on several factors.

Do solar panels cost more than roof tiles?

Roof-integrated systems typically cost 11% more than getting rooftop panels, to pay for the time and skill it takes to remove the right roof tiles and fit panels flush with the other tiles. Solar tiles cost around 300% more than rooftop panels, mostly because installing them involves replacing an entire roof.

What is a solar panel cost calculator?
