

What's new in energy storage funding?

(Bloomberg) -- The UK government is launching a new funding program to unlock investment in long duration storage, a key part of its drive to optimize the expansion of renewable energy. Under the so-called cap and floor regime -- already used for electricity interconnectors -- energy storage developers will be guaranteed minimum revenues.

How much funding will UK energy storage projects receive in 2022?

This announcement follows the £32.8 million funding awarded to 5 UK energy storage projects across the country in November 2022 to create first-of-a-kind prototypes of their technology. A total of £69 million of funding has been awarded so far through this programme, helping to drive innovative technologies such as energy storage.

What is the long duration energy storage Investment Support Scheme?

Long Duration Electricity Storage investment support scheme will boost investor confidence and unlock billions in funding for vital projects. The UK is a step closer to energy independence as the government launches a new scheme to help build energy storage infrastructure.

How can the UK help build long-term energy storage capacity?

The UK government announced today the launch of a new scheme aimed at helping to build long duration energy storage capacity by enabling investment in critical infrastructure.

When will the 'long duration electricity storage' scheme be open?

The scheme's first round is expected to be open to applicants next year. Beatrice Filkin, Director of Major Projects at Ofgem said: "We are pleased to see the government's publication today on its plans for long duration electricity storage.

What does the Rea announcement mean for long-term energy storage (LDEs)?

The announcement follows a consultation on proposals to enable investment in LDES which closed in March 2024 and call for Evidence in 2023. It also finally delivers on the scheme which the REA originally advocated for in our 2021 Long Duration Energy Storage Report.

UK energy storage funding is rapidly improving with £270M (US\$337 million) of funding announced in November 2020 alone for two players, developer/integrator Zenobe and investment fund Gresham House Energy ...

The programme will set the bar for storage energy systems around the world, positioning the UK as the global leader in energy storage and flexibility. Highview Power will now also commence planning on the next four ...

The LPO has been granted the authority to distribute hundreds of billions of dollars to innovative clean energy and advanced manufacturing projects. Through September 2024, the office reported financing nearly \$44 ...

Today, the U.S. Department of Energy's (DOE) Loan Programs Office (LPO) announced a conditional commitment to Eos Energy Enterprises, Inc. (Eos) for an up to \$398.6 million loan guarantee for the construction of up ...

Deployment of cheap solar and wind is surging towards the global goal of tripling renewable capacity and doubling energy efficiency by 2030 - with clean energy on course to meet half of all electricity demand worldwide. New actions announced today at COP29 in Baku have given the energy transition a further boost.

"Cap and floor" scheme will encourage long-duration energy storage (LDES) investment. Ofgem will act as regulator and delivery body and the scheme's first round is expected to be open to applicants next year.

Today, the U.S. Department of Energy's (DOE) Loan Programs Office (LPO) announced a conditional commitment for an up to \$72.8 million partial loan guarantee to finance the development of a solar-plus long-duration ...

Energy storage developer NineDot has announced the closing of a US\$65 million equipment financing supporting the purchase of up to 100MW/400MWh of batteries for use in up to 20 battery storage projects ...

Gore Street Energy Storage Fund's 100% subsidiary, Big Rock ESS Assets LLC, which owns the 200MW / 400MWh Big Rock project in California, has successfully completed the loan conversion process and upsized the facility from the initial \$60.0 million to a \$90.0 million facility with First Citizens Bank, following the project successfully completing ...

Announcement marks the first major financing of a utility-scale project that will benefit from Clean Peak Energy Certificates (CPECs) in Massachusetts THE WOODLANDS, Texas, June 13, 2024 -- Today ...

" Energy UK welcomes today's announcement of a cap and floor financing scheme to support long duration energy storage. By providing long-term certainty and ...
