

The U.S. Department of Energy (DOE) Loan Programs Office announced a conditional commitment for a loan guarantee of up to \$559.4 million to subsidiaries of Convergent Energy and Power Inc., an energy storage ...

This interest-free loan is intended to facilitate financing for a range of energy-efficient improvements and renewable energy systems, including solar panels and battery storage. Eligible applicants can receive up to \$6,000 ...

On November 25, 2024, LPO announced a conditional commitment of up to \$289.7 million to Sunwealth to help finance Project Polo, a deployment of up to 1,000 solar photovoltaic (PV) systems and battery energy storage systems (BESS).

The loan guarantee will finance the deployment of up to 1,000 solar photovoltaic (PV) systems and battery energy storage systems (BESS) located primarily at commercial and industrial facilities and integrated across up to 27 states.

The first investment expected to be supported by the APS loan guarantee is the construction of the Agave Battery Energy Storage System, a 150 MW, 600 MWh battery located near an existing solar facility. Additional loan-supported projects are expected to include more grid-scale batteries, solar, and transmission.

The loan guarantee will finance the deployment of up to 1,000 solar photovoltaic (PV) systems and battery energy storage systems (BESS) located primarily at commercial and industrial facilities ...

Vena Energy has added a 41.5MW battery energy storage system (BESS) to a 87MW solar PV power plant in South Australia. US DOE loans US\$1.2 billion for Puerto Rico PV/BESS as Biden administration ...

The U.S. Department of Energy (DOE) will provide more than half a billion dollars in loans to add nearly 1 GWh Convergent to build and operate utility-scale solar-plus-storage in Puerto Rico, improving grid resilience.

The loan guarantee will finance a solar photovoltaic (PV) system with an integrated battery energy storage system (BESS) and three stand-alone BESS projects across Puerto Rico--underscoring the Biden-Harris Administration's deep commitment to rebuilding and modernizing Puerto Rico's electric grid.

The US Department of Energy (DOE) has issued a loan of up to US\$861.3 million to support 200MW of solar PV and 285MW/1,140MWh of battery energy storage system (BESS) projects in Puerto Rico.

The Department of Energy Loan Program Office (LPO) announced a conditional commitment of up to \$289.7

million to Sunwealth to help finance Project Polo. The project aims to deploy up to 1,000 solar and battery energy storage systems (BESS) in ...
