SOLAR PRO. Good Swedish capacitors

Should I buy capacitors from China?

Don't ever buy capacitors from China. Especially top brands from the post above. In addition to those there are: Vishay and Kemet are not "premium" grade electrolytic manufacturers. Kemet makes fine poly's and Vishay makes fine ceramic caps. I would not recommend ether as first choice for Electrolytics.

Where can I buy a capacitor?

Capacitors seem to be one of those things that is counterfeited a lot, so definitely want to buy from good sources like Digikey, Mouser etc. AVoid Ebay, Aliexpress, Amazon etc as you don't know what you're getting. Re: Capacitor brands? Vishay and Kemet are not "premium" grade electrolytic manufacturers.

Who are the best capacitor companies & distributors in South Africa?

We have compiled the best capacitor companies and distributors in South Africa list for you to pick as below: Established in 2005, ID Capacitors has been the capacitor supplier of choice to the industry throughout Southern Africa. As a specialised capacitor importer and distributor, our supplier network stretches across the globe.

Are Kemet and Vishay capacitors the same?

Kemet also makes fine tantalum and ceramic capacitors. Vishay makes a lot of other fine stuff as well, like semiconductors and precise resistors. But you will rarely find Vishay and Kemet electrolytic caps in consumer equipment. Most of those go into industrial, telecommunication, automotive. Good to know... Re: Capacitor brands?

Who makes distrelec capacitors?

At Distrelec, we stock an extensive collection of capacitors to suit a wide range of applications. We source these products from highly regarded manufacturers that include KEMET, Panasonic, RND Components, Vishay, and Wima.

Are there any good capacitor brands?

There are many good capacitor brands. Not in particular order.. I personally prefer Rubycon but for reasons of availability do sometimes use Panasonic/nichicon. There are also many other ok brands but i prefer the above. Re: Capacitor brands? Don't ever buy capacitors from China. Especially top brands from the post above.

Are Elna ALP capacitors any good? Lately, something called Elna ALP-series capacitors have been showing up on Alliexpress, Amazon and eBay, but they don't show up in in Mouser or Digital-Key, or in the Elna online catalogue. All of these seem to be 12000uF, 56V, 85°C with an impressive ESR-rating, which would make them useful in various ...

Good practice guide for papers on supercapacitors and related hybrid capacitors for the Journal of Power Sources Journal of Power Sources (IF 8.1) Pub Date: 2020-02-01, DOI: 10.1016/j.jpowsour.2019.227636

The only subreddit dedicated solely to the Game Gear! Game Gear was Sega"s entry into the handheld market. Nintendo"s Game Boy was dominating the market, but Sega entered with a portable, color, and backlit version of it"s 8-bit home ...

I"ve got 1000 of their 2200uF capacitors, low ESR version. Long life rated 2000 hours. Friends who have experience with them recommended them for use with things like power supplies and light motherboard application due to their incredibly low ESR and good life span.

The old capacitor was reading 230 uF on my meter while the range is 233-280. The motor would not start and made loud humming. The switch on the inside has continuity. I could not find anything wrong so I figured I would replace the capacitor since it"s was cheap. The new capacitor is reading 225 uF on my meter and is rated the same range 233 ...

Their aluminum electrolytics have great specs and low cost. I suppose it remains to be seen how things will pan out in the long term - sometimes, certain wet Al capacitor types have proven to fail prematurely because of impurities in the foil or electrolyte, but that failure mode requires a year or more to manifest, so we won"t know for a while.

At Distrelec, we stock an extensive collection of capacitors to suit a wide range of applications. We source these products from highly regarded manufacturers that include KEMET, Panasonic, RND Components, Vishay, and Wima.

In your list of top-tier capacitor manufacturers you missed out on some of the better american and european manufacturers, while these may not be used on many ...

We offer a vast array of capacitors to suit a wide variety of applications. Here is some information about capacitor types, how they work, how to choose them, and applications.

A capacitor is a passive device on a circuit board that stores electrical energy in an electric field by virtue of accumulating electric charges on two close surfaces insulated from each other. This is a list of known capacitor manufacturers, their headquarters country of origin, and year founded. The oldest capacitor companies were founded over 100 years ago.
