

We have made battery box heaters in the past, mostly for tractor-trailer units, they do work great however they are 120VAC for overnight when the semi is stationary. Using a tank heater attached to the battery itself is also not recommended, it produces way too much heat for the cells, possible thermal run-a-way or other damage.

High quality, low height 100Ah lithium battery with Bluetooth comms & heater. Ideal as a drop-in lead-acid replacment in many deep discharge applications. 01844 885100. ... This 100Ah variant also has a built-in heater that takes its ...
