

PV Tech has been running PV ModuleTech Conferences since 2017. PV ModuleTech USA, on 17-18 June 2025, will be our fourth PV ModuleTech conference dedicated to the U.S. utility scale solar sector.

As the demand for solar PV grows globally, China - the world's largest solar PV factory - continues to remain busy rolling out products across the supply chain ... A large chunk of the silicon wafer output of 608 GW was also consumed domestically . ... the country's large-scale industrial solar cell production totaled 68.14 GW in ...

The results show that there is great potential for further development of large-scale PV in China. 39.43% of China's land is suitable for large-scale PV installations, with the greatest proportions of such land found in Xinjiang (32.39%), Tibet (22.28%), Inner Mongolia (17.81%), Qinghai (9.20%) and Gansu (5.72%).

Philippines" Department of Energy cleared 29 utility-scale solar projects in the January-August period. Most of them have a capacity of more than 180 MW and four of them ...

They agreed on a "floor price" of CNY 0.68/W, with state-owned energy companies pledging to reject bids below this price in large-scale tenders, while manufacturers committed to not ...

Huasun wins 840 MWp HJT module bids for 2024. Heterojunction (HJT) solar module manufacturer Huasun Energy has announced that it has secured 2 major bids with PowerChina for 2024, including a 500 MWp procurement of n-type HJT modules and a 339.68 MWp supply for the Qinhuangdao Changli offshore PV pilot project. Having been ranked first ...

TotalEnergies commissions its largest utility-scale photovoltaic plants with batteries in the United States; Spain approves 650 MW for 11 photovoltaic and hybridisation projects, including 39.6 BESS from Naturgy; How the US lost the solar photovoltaic (PV) race to China; China improves photovoltaics (PV) with first 100% recycled panel

Solar panel shipments were prone to shipping constraints, which put pressure on Q1 supply. By March, it became clear that TOPCon modules would become the main module product in the market when major ...

Workers check solar panels at a photovoltaic power station in Chongqing, China, July 27, 2018. Picture taken July 27, 2018 REUTERS/Stringer/File Photo Purchase Licensing Rights, opens new tab

In India, the Ministry of New and Renewable Energy (MNRE) announced this week that from June 2026, solar projects must use cells from List-II of the Approved List of Models and Manufacturers (ALMM).

The large-scale solar markets of China, the USA, and Europe have experienced vastly different fortunes over the past couple of years. As China has boomed and the U.S. held steady, Europe has seen ...
