According to the website scrapprice.com, it can be seen that the highest price for scrap batteries is in Belarus, but this may not be entirely true. Cash for scrap scrap battery.

What is a lead acid battery (LME)?

It provides a platform for trading and price discovery of a wide range of metals, including copper, aluminium, and lead. The LME sets the benchmark prices for these metals, which are used as references for contracts and transactions all over the world. Lead acid batteries are among the most frequently recycled consumer products on the planet.

How much does a lead acid battery system cost?

A lead acid battery system costs hundreds or thousands of dollars less than a similarly-sized lithium-ion setup. The cost of a lithium-ion battery system, including installation, ranges from \$5,000 to \$15,000, and this range can go higher or lower depending on the size of the system you need.
