

The event, attended by esteemed guests including Chief Secretary of Ministry of Economic Affairs Chih-Ching Yang (???), the Director of the French Office in Taipei Franck ...

The attached photo is the single cell of solid-state battery which was developed as a material for the next generation of CeraCharge. Utilizing TDK's proprietary material ...

PLCB (Pouch Lithium Ceramic Battery) PLCB (Pouch Lithium Ceramic Battery) Fundamentally safe; Fast charge ability: 80% in 12 mins; Wide operation window: discharge/charge in -30&#176;C ~ ...

According to ProLogium, years of research culminated in the fourth-generation LCB battery with fully inorganic electrolyte, eliminating organic content entirely and increasing ...

Better lithium ceramic battery technology platform. Solving conductivity and brittle issues of oxide electrolyte. Ceramic oxide electrolyte is known for its superior stability. However, it also ...

At CES 2025, ProLogium introduced its fourth-generation lithium ceramic battery (LCB) system, featuring several technological breakthroughs including a five-minute fast ...

ProLogium has delivered nearly 8,000 samples of its lithium ceramic solid state battery cells and will supply car makers later this year. The solid state battery samples are ...

TAOYUAN, Dec. 13, 2024 /PRNewswire/ -- ProLogium Technology, a global leader in next-generation lithium ceramic batteries, reached a significant milestone on December 6, 2024, by ...

FEV and ProLogium present the latest generation of their Large-Footprint Lithium Ceramic Battery (LLCB). Thanks to its lightweight design and increased energy density, it enables longer ranges and offers the option of ...

A lithium ceramic could act as a solid electrolyte in a more powerful and cost-efficient generation of rechargeable lithium-ion batteries. The challenge is to find a production method that works without sintering at high ...

TDK says its new ceramic materials for batteries will improve the performance of small consumer ... which is a subsidiary of TDK and is the world's leading producer of lithium ...
