

Why should you choose a professional lithium battery repair service?

Discover professional lithium battery repair services designed to breathe new life into your batteries. Our experts specialise in restoring lithium batteries to their optimal performance, saving you time and money. Say goodbye to premature replacements and hello to sustainable solutions.

Where to buy lithium batteries?

Where you buy your lithium batteries will likely depend on the application and type of battery you need. For instance, you can find AA lithium batteries in most brick-and-mortar stores. But 12-volt deep-cycle lithium marine batteries and RV lithium batteries aren't as commonly found.

Which companies provide non-lithium batteries?

Non-Li-ion batteries are provided by startups and large, well-established corporations. Typical non-Li-ion batteries include sodium sulfur batteries, flow batteries, advanced lead-acid batteries, and zinc-based batteries.

Who makes custom lithium ion batteries for medical devices?

At CMXBATTERY, we manufacture custom lithium ion batteries for medical devices according to medical device battery regulations. Coremax develops custom power backup medical grade batteries for a broad spectrum of healthcare applications, from emergency to surgical to therapeutic and beyond.

Do you need a lithium battery repair?

Lithium battery repairs gives broken batteries a new life. If you notice a significant drop in the performance of your devices powered by lithium batteries, such as reduced runtime or slower charging times, it could indicate underlying issues that need attention.

Where can I mail lithium batteries?

Customers can mail packages containing lithium batteries installed in electronic devices to their local Post Office for many international destinations, and Army (APO), Fleet (FPO), and Diplomatic Post Office (DPO) locations. For the current regulations regarding the mailability of lithium batteries, please visit your local Post Office.
