

Will Stellantis build a battery factory in Spain?

Stellantis and Chinese battery maker CATL will invest 4.1 billion euros (\$4.33 billion) to build one of Europe's largest electric vehicle battery factories in Spain, encouraged by lower costs and government funding.

Will a new electric car battery factory in Zaragoza open in 2026?

A JOINT venture will see EUR4.1 billion spent on a new electric car battery factory in Zaragoza with an opening date of late 2026. Stellantis and Chinese battery maker CATL say the plant would produce lithium-iron phosphate batteries -- also known as LFP -- which are cheaper than conventional units and therefore more attractive to potential car buyers.

Is Spain a winner for electric car battery investments?

Spain -- Europe's second largest car producer after Germany -- is emerging as a winner for some battery investments, due to advantages such as lower energy costs. An electric car battery is being built by Volkswagen in Sagunto (Valencia province) and there are plans for two others in the country.

Is solar energy cheaper in Spain than in Central Europe?

Indeed, solar energy is 20-25% cheaper in Spain than in central Europe, a McKinsey study showed in July. MADRID (Reuters) - Stellantis and Chinese battery maker CATL will invest 4.1 billion euros (\$4.33 billion) to build one of Europe's largest electric vehicle battery factories in Spain, encouraged by lower costs and government funding.

Where will CATL's battery factory be located in Europe?

The Zaragoza site would be CATL's third factory in Europe; the other two are wholly owned by the battery maker. Spain -- Europe's second largest car producer after Germany -- is emerging as a winner for some battery investments, due to advantages such as lower energy costs.

Who makes electric car batteries?

Founded in 2011 in Ningde, eastern China, CATL produces more than a third of the electric vehicle batteries sold in the world. Italian-US-French company Stellantis produces 14 brands including Fiat, Peugeot-Citroen, Opel, Maserati, Chrysler, Ram and Jeep.

STORAGE: North Carolina awards a sodium-ion battery maker a \$ 21. 7 million grant plus additional incentives for workforce training and site improvements to secure its commitment to build a \$ 1. 4 billion factory at a long-dormant business park. (Raleigh News & Observer, WRAL). OVERSIGHT: A Louisiana regulatory board quietly approves the \$ 484 ...

Panasonic Energy Co., Ltd. has issued a press release entitled "Subaru and Panasonic Energy to Begin

Preparation for Supply of Automotive Lithium-ion Batteries and Joint Establishment of New Battery Factory in ...

The Envision Energy factory in Spain will develop and manufacture the latest generation of lithium iron phosphate (LFP) battery products, with production expected to begin in 2026. This will be the first LFP battery gigafactory in Europe.

In this article, we will explore cutting-edge new battery technologies that hold the potential to reshape energy systems, drive sustainability, and support the green transition. We highlight some of the most ...

China's EVE Energy has announced the official launch of the first phase of its 60 GWh battery energy storage factory in Jingmen City, Hubei Province. The facility unveiled on December 10 is considered the world's largest BESS manufacturing plant. It is also the first factory to mass produce 600Ah+ high-capacity battery cells.

Stellantis, whose brands include Citroën, Fiat, Opel, and Jeep, has a strong presence in Spain, with factories in Zaragoza, Vigo, and Madrid. The group's commitment to ...

The new LFP battery production plant from Stellantis and CATL is scheduled to go into operation at the end of 2026. The goal is an annual capacity of up to 50 GWh in a later expansion stage. ... (Madrid, Vigo and ...

The proposed battery plant could be operational in 2025. Envision, which is working on the project through its battery technology unit Envision AESC, expects the project to create some 3,000 new jobs from then ...

Madrid, Spain - BYD, the world's leading manufacturer of New Energy Vehicles (NEVs) and power batteries, has recently been awarded an order for 15 electric buses from Empresa De Blas y Cía. S.A. ... The 13-metre ...

Madrid (AFP) - Car giant Stellantis and Chinese manufacturer CATL said Tuesday they would build a \$4.3-billion factory to make electric vehicle batteries in Spain, the ...

CATL and Stellantis will build a EUR4.1bn lithium battery factory in Spain, expanding China's manufacturing footprint on European soil and boosting the European carmaker's pivot to electric ...
