Which energy storage projects have been sold to Foresight Energy Infrastructure Partners?

In May last year, it sold two battery energy storage system (BESS) projects in southern England to Foresight Energy Infrastructure Partners: Sundon BESS, a 49.5MW project north of London that will connect with National Grid's Energy Park initiative; and Warley BESS, a 57MW project in Essex. Both sites have grid connection dates in 2024.

Will Neso make energy storage fit for the future?

Ministers confirmed that the system of energy storage is being reviewed with the National Energy System Operator(NESO) to help make it fit for the future.

#### Could LDEs be the UK's first long-term energy storage facility?

DESNZ said the LDES investment scheme "could see the first significant long duration energy storage (LDES) facilities in nearly four decades, helping to create back up renewable power and bolster the UK's energy security.

#### Could LDEs save the energy system £24bn?

Other technologies, such as liquid air energy storage, compressed air energy storage and flow batteries, could also benefit from the scheme. Studies suggest that deploying 20GW of LDES could save the electricity system £24bnbetween 2025 and 2050, potentially reducing household energy bills as reliance on costly natural gas decreases.

#### Where are UK solar and battery storage projects based?

UK solar and battery developer Renewable Connections and project partner European Energy UKsold two co-located solar and battery storage projects based in Scotland- one at Strathruddie Farm and one at Montreathmont Moor - with an aggregate combined capacity of 121MWdc (67MWac) in April last year.

What is the long duration energy storage Investment Support Scheme?

Long Duration Electricity Storage investment support schemewill boost investor confidence and unlock billions in funding for vital projects. The UK is a step closer to energy independence as the government launches a new scheme to help build energy storage infrastructure.

5 ???· Giles Hanglin is CEO of UK renewable energy storage specialists Apatura. Apatura specializes in the development, construction, and future operation of Battery Energy Storage ...

Trinidad and Tobago boasts of more than 100 years" experience in the global energy industry. As a result, our country presents an attractive environment for natural gas-based and sustainable energy industry projects. As we transition to a decarbonised future, National Energy looks forward to investment projects that are adopting
