

Who is Nordic storage AB?

Nordic Storage AB, a member of Aquarius Energy, is a company for storage of petroleum products and petrochemicals. Nordic Storage AB controls over 1 million cubic meters of liquid bulk storage capacity, with terminals located in Sweden and Denmark.

Where is Nordic storage located?

In Oskarshamn on the Swedish east coast, located less than a day's sailing from the Baltic's major export ports, Nordic Storage has seven rock caverns and one tank with a total storage capacity of 110 000 cbm for middle distillates.

What does Nordic energy do?

Nordic Energy designs, constructs, operates and maintains sustainable energy projects. Examples include district heating and cooling, energy from waste (EfW), building efficiency, low-temperature heat sources, solar thermal and energy storage. Energy underpins our entire society and it is more complex than ever before.

Who is Nordic Energy UK?

Nordic Energy UK deliver low-carbon energy infrastructure from concept to completion. We design, construct, operate and maintain sustainable energy projects.

How does Nordic energy deliver low-carbon energy infrastructure?

Nordic Energy deliver low-carbon energy infrastructure from concept to completion. We are experts in renewable energy & decarbonisation project delivery. Decarbonise your existing infrastructure and build new low-carbon infrastructure. Nordic Energy designs, constructs, operates and maintains sustainable energy projects.

Who are the Nordic energy team?

The Nordic Energy team is highly skilled, well organised and has a secure grasp of the outputs required by the Council. The team fully understands that, alongside providing low carbon energy, the mine-heat project is a key regeneration driver for Caerau village. - Michael Jenkins, Team Leader Sustainable Development
