

Who is Nordic batteries?

Business Norway presents Nordic Batteries as one of several Norwegian companies in the battery value chain. They highlight the increasing importance of supply security and increasing demand for sustainable batteries.

What is Nordic batteries doing with Morrow batteries & eldrift?

Nordic Batteries announces it is entering into a strategic partnership with Morrow Batteries and Eldrift to develop complete battery packs for mobile and stationary battery energy storage solutions(BESS). The overall project and product pipeline amounts to 7 GWh until 2030.

What is the Nordic battery collaboration?

The Nordic Battery Collaboration is founded on Norway, Sweden, and Finland's shared similarities and comparative strengths across the battery value chain. The three countries work closely together with a joint value proposition which aims to attract foreign direct investments as well as strategic partnerships with OEMs and R&D centres.

Are batteries a potential green industry in Norway?

McKinsey & Co. has identified batteries as one of Norway's principal potential green industries in the future. According to the consultancy, a rapid and broad strengthening of all parts of the battery value chain is needed to satisfy the global battery shortage.

Is Norway a good place to buy EV batteries?

An early adopter of electric transport, Norway continues to capture EV battery headlines. Electric cars now account for 79 per cent of new cars sold in Norway, and the MS Medstraum was recently launched as the world's first electric fast ferry. In a global report on lithium-ion batteries, Norway ranked first in sustainability.

Who makes lithium phosphate batteries?

Elinor Batteries has signed an MoU with SINTEF Research Group to open a sustainable, giga-scale factory in mid-Norway, and HREINN will manufacture 2.5 to 5 million GWh batteries annually using lithium iron phosphate (LiFePO₄) technology. Also a newcomer, Bryte Batteries produces and integrates flow battery systems for large-scale energy storage.

Kongsberg-based Nordic Batteries will deliver state-of-the-art battery modules and packs of various sizes, battery management systems, and temperature control technology to Eldrift and other system integrators.

The Nordic Battery Value Chain - Market drivers, the Nordic value proposition, and decisive market necessities Report from Innovation Norway, Business Finland, Business Sweden and ...

In today's fast-paced and data-driven world, businesses are constantly seeking innovative ways to gain a

competitive edge, make smarter decisions, and deliver exceptional customer ...

Nordic Batteries fills the gap in the value chain between cell manufacturers and system integrators and contributes to building a complete Norwegian value chain for battery production. The company has developed battery modules and ...
