

When did Apple discontinue the MagSafe battery pack?

Apple discontinued the MagSafe Battery Pack in September 2023 when the iPhone 15 lineup was announced with USB-C. It isn't clear if Apple will introduce a new battery pack with USB-C. Details below this point were written before the device's cancellation.

What happened to the MagSafe battery pack?

It was discontinued in 2023 after iPhone 15 shipped with USB-C. The MagSafe Battery Pack was the successor to the Apple Smart Battery Case and is compatible with any iPhone with MagSafe. It had a relatively small charging capacity but had multiple unique features that made it a worthwhile purchase.

Will Apple introduce a new battery pack with USB-C?

Since the battery pack could attach magnetically, it didn't rely on iPhone design to dictate how it worked. Apple discontinued the MagSafe Battery Pack in September 2023 when the iPhone 15 lineup was announced with USB-C. It isn't clear if Apple will introduce a new battery pack with USB-C.

How much does a MagSafe battery pack cost?

Customers can buy the MagSafe Battery Pack for \$99 from the Apple Store and other retailers. It is only available in white, though some accessory makers like Nomad are making skins to add some extra flair to the device. Apple's MagSafe Battery Pack offered a simple way to keep your iPhone battery alive at the end of a long day.

Does Apple still sell MagSafe batteries?

However, it seems that some Apple products will not be included in this transition. Apple no longer sells the MagSafe Battery Pack or MagSafe Duo charging mat on its website -- presumably, discontinuing these products is easier than upgrading them to USB-C. Apple is ditching the Lightning connector, but it isn't a voluntary choice.

Are MagSafe batteries overpriced?

But, realistically, these products were overpriced and kind of lackluster. The MagSafe Battery Pack, which has a paltry 1,460mAh capacity, launched at \$100 -- twice the price of some third-party MagSafe batteries, and several times the price of equivalent non-MagSafe batteries.

Apple has removed the MagSafe Battery Pack and the MagSafe Duo from its online store following the iPhone 15 launch event that introduced its first phones with USB-C ports and support for Qi2 ...

I ordered both the ESR Halolock 10k magsafe battery and the Mophie Snap plus juice pack mini and will test them both.. I accidentally ordered 2 Mophie ones when the site went down temporarily because I didn't get notification it went through ...

Whether this includes a USB-C MagSafe battery charger remains to be seen. Apple's MagSafe Battery Pack came out nine months after the iPhone 12.
