

What is a duo solar charge controller?

EP Solar Duo-Battery Solar Charge Controller 12/24v 20A. Fast Delivery Our Duo Solar Charger will charge 2 separate and isolated battery banks simultaneously. This eliminates the added cost needed for two separate controllers and panels for instance if you wanted to charge both the leisure battery and engine starter battery in a motorhome.

How do you charge a solar panel?

Mount the panel in a suitable location to receive maximum sunlight, hook up the charger-monitor to the battery and walk away. No more battery problems. When the panel receives sun, the SOLAR CHARGE LED blinks confirming solar power is being delivered and one of the four battery status LEDs (SAVE, CHARGE, MAINTAIN) indicates charge progress.

What is a dual battery solar controller?

Dual battery solar controller for RVs, Motorhomes, Caravans, and Boats etc Suitable for 12v and 24v and up to 20A. 200 watts of solar when connected to a 12v battery system and 400w of solar panels when connected to a 24v battery system. For smaller solar panels please see 10A version.

How does the Optimate solar charger work?

Charger by day, monitor by night. The new OptiMate Solar range features a smart charger-monitor which automatically adjusts the charge according to the battery type and condition. Battery status information is provided while charging and when the battery is at rest overnight.
