

The detector has a DC3.7V Li battery 1500mAh that allows up to 24 hours of continuous use. Advanced features such as temperature detection, alarm ...

This microprocessor-controlled instrument features onboard data collection, a hold function (the reading freezes on the screen when the test is complete), a 12-hour internal battery, a TFT full ...

The Model 3110 represents the new generation of portable trace and percent oxygen analysis capabilities. It combines a rugged, portable analyzer with the high reliability of trace and percent level sensors. This ensures highly accurate ...

continuous, battery-powered. Description. The AX300 and MX300 are medical oxygen analyzers manufactured by Teledyne. These tools provide flexible, and reliable performance in oxygen analyzing, using high-quality manufacturing ...

SERRAX Portable Battery Operated Oxygen Headpace Analyzer MAP550, For Food Packaging Inspection INR 45,000. Serrax Technologies LLP. Contact Supplier. Hand Held Portable Head Space Oxygen Gas Analyzer, For Food Packets, ...

Specifications - G36a/p Oxygen Analyzers G36p G36a Certificates & Approvals MED by DNV - BV, DNV, and Lloyd's Register Type Approval -- Sensor Heated Zirconia Sensor - both SEN1 plug-in type and SEN9 screw-in type Measurement Range 0.0 ... 21.0% O2 Repeatability +/- 0.1 % of the measurement range Accuracy +/- 0.5 % of the measurement range ...

Handheld oxygen analyzer for continuous measurement of the oxygen concentration from a medical gas source and in an environment. ... Battery life: approximately 5,000 hours with typical use. Sleep mode operation to extend ...

The Orbisphere 3650 EX portable analyser family measures oxygen (O2) or hydrogen (H2) in areas where hazardous and flammable conditions are possible. It displays continuous line ...

Easy to use This model incorporates a Micro-fuel Cell sensor for quick and accurate analysis of oxygen. It is maintenance-free, sealed, the electrochemical cell is specific to oxygen, is insensitive to flow rate and has a 90% response in ...

Ensuring the oxygen content of a cylinder is correct is vital to ensure the safety of the end user. The O2 Portable provides a fast and accurate reading of O2 levels in that cylinder, easy to ...

Medical Oxygen Analyzer. Our all OxyData devices are IoT (Bluetooth/Wi-Fi) enabled and can be wirelessly connected to Android Mobile phones through OxyData App (available on Google play store) ... OxyData features a reliable ...
