Do portable solar panels work with campervans?

Our portable solar panels work well with caravans, campervans, motorhomes, and even boats, providing flexible power wherever your adventures take you. Discover portable solar panels for campervans and caravans--easy to set up, efficient, and perfect for off-grid power on the go!

What is a folding solar panel?

A folding solar panel is ideal for trekking, cycling, kayaking and climbing expeditions. They can be unfolded and strapped to your backpack with the re-inforced eyelets (and your bungee cord), so you can charge your electronics on the move. Lightweight so they won't weigh you down and when you need to stow them they can easily be folded away.

How do portable solar panels work?

Unlike traditional solar systems that require complex installation, our portable folding panels and free-standing kits are designed to be set up quickly and effortlessly, wherever you need them. Simply unfold, position towards the sun, and start generating power within minutes--no tools or professional installation required.
