

Real estate developers transform into energy storage battery companies

Who has delivered the battery energy storage project?

Audi, Etogas, and MAN Energy Solutions have delivered the battery energy storage project. The Stuttgart-based plant manufacturer Etogas GmbH (formerly SolarFuel) has timely developed and built the world's largest power-to-gas plant. Audi AG is the customer and operator.

Are data centers the hottest asset class in real estate?

This is not a surprise or a secret in real estate capital markets; data centers have probably been for the past two years the hottest asset class in the real estate industry. But now there's an associated problem that's emerging ... which is that data center is so energy intensive, the local utility will not allow you to plug in that grid ...

Is the real estate industry poised for a bounce back?

Change typically presents hidden benefits, however, and Wallace believes the industry is poised for a bounce back. As he sees it, there are ballooning opportunities tied to asset resilience -- or using tech to help real estate assets withstand damage and disruption.

[So] the bottom line is, yes, we are investing in solutions to accelerate the development of solar alongside our real estate investors, and real estate companies will ...
