

Who makes a rechargeable battery pack?

ACCUTRONICS design, develop and distribute a wide range of rechargeable battery packs. As well as being the sole UK and Europe distributor of INSPIRED ENERGY battery packs, we also manufacture a diverse range of packs with our parent company, ULTRALIFE. Most packs contain Lithium-ion chemistry.

How many devices can a USB-C charger charge?

You can simultaneously charge three devices at fast speeds, and the box includes a braided USB-C cable and a wee velvety bag. It can also recharge completely in an hour via USB-C at up to 140 watts (with the right cable and charger). The only thing I don't like is the relatively high price.

Does Currys offer portable battery chargers?

Our range includes portable battery chargers compatible with all mobile phones and devices. *Spread the cost. £99 minimum spend applies. Representative example: Credit, offers and APR are subject to status and determined by the lender. 18+. Requires a running Currys flexpay credit account.

What is a rechargeable lithium ion (Li-ion) Entellion pack?

Housed in a tough plastic case, ACCUTRONICS' rechargeable Lithium-ion (Li-ion) Entellion Packs are ideal for devices that require a hard-wearing power solution. Cases can be custom branded (volume dependent) for resellers or to match the device design.

Are rechargeable batteries a good idea?

Rechargeable batteries are a smart idea, and Eneloop are the best, but if you need alkaline batteries for some reason and you are in Europe, check out the Itson range. They are made in the EU from recycled materials, and they are very affordable. There are so many portable chargers out there.

Where are portable chargers made?

They are made in the EU from recycled materials, and they are very affordable. There are so many portable chargers out there. Here are a few more we like that just missed out on a place above for one reason or another.
