

Can solar panels damage a roof?

Fortunately, roof damage from a solar panel installation is extremely rare because installers take precautionary steps while installing panels to prevent leaks and other damage. Like any home improvement project, using the right service provider is essential to a rooftop solar job.

Can solar panels cause a leaky roof?

Solar panels themselves do not cause leaky roofs. However, if the installation is not done correctly or if the roof is not properly maintained, it may lead to leaks. It is essential to work with experienced professionals and conduct regular inspections to ensure the integrity of the roof. How long does a roof last under solar panels?

What happens if solar panels are not installed properly?

Issues such as leaks, broken tiles, and structural damage can occur if the panels are not installed properly. To avoid roof damage, working with experienced installers who understand the intricacies of solar panel installation is essential. They will know how to secure the panels without compromising the integrity of your roof.

Can solar panels be installed on a roof?

Whoever is responsible for installing the panels should utilise special tools to divert any water away from and around the holes drilled for the racking. Solar panels added to a roof with existing damage can prove disastrous. Your roof should be in good condition with no weak spots or holes.

Should you delay a solar roof repair?

Delaying repairs can only increase the extent of roof damage and the labor cost. So, if you are aware of the fact your roof has been damaged during, or after the solar panels are mounted, it's time to consult professionals. Call A. Fricker Roofing and Waterproofing today at (918) 402-7167 and talk to experts about your roof repair.

Do solar panels void a roof warranty?

Solar panels do not inherently void a roof warranty. However, some warranties may have specific clauses related to modifications or alterations to the roof. It is important to consult with the roofing manufacturer and installer to ensure that the warranty remains valid after solar panel installation. Are solar panels screwed into the roof?
