

What are 5 kW solar kits?

5 kW solar kits are complete PV solar power systems that include solar panels, Enphase micro-inverters, 24/7 monitoring, rack mounting system, hardware, cabling, permit plans, and instructions. These grid-connected solar kits can work for a home or business, with just about everything you need to get the system up and running quickly.

What is a 5kw Solar System?

A 5kw solar system reduces your monthly utility bills, which accumulate to significant savings over a year and through to the 25+ years of lifespan of your solar panel system. Your solar panels will generate an enormous amount of solar electricity to power your home throughout the year, reducing your grid electricity withdrawals.
