

What is a quality control inspection for solar PV?

This inspection covers visual inspection, quantity verification, field testing and measurements, and certification checks such as IEC, UL, and CE marking. These inspections can be performed at various stages, including: Apart from our quality control inspections for solar PV, we provide a variety of vendor assessment services.

What happens during a solar panel inspection?

Finally, the inspector will check your system to ensure you have all the required safety and specification labels throughout your system. A solar panel inspection also includes reviewing the structural installation and your home's structure for roof mount systems.

How can a solar panel quality control service help you?

We can help you reduce your risk of receiving faulty products and ensure that all stages in your project, from verifying your solar supplier, conducting a solar panel quality check to completing the PV project, conform to acceptable norms and applicable standards with our tailored PV quality control services.

How HQTs can help you with a solar panel audit?

Whether you require an audit of solar panel manufacturers in China or an inverter factory in India, we can assist you with: HQTs can conduct diverse tests to identify any variations or issues in the performance of the solar equipment. These tests typically include: At HQTs, we are more than a solar panel inspection company.

This commitment to quality extends throughout the production process, with 411 quality control points for our solar modules, from source materials through to the packaging and pre-shipping inspection. Our quality control process ensures that Canadian Solar PV Modules are designed and built to provide safe, reliable, and long-lasting results.

Once the inspection is completed, the Customer Representative will compile his Inspection Summary Report and share with Supplier and give necessary recommendation on despatch depending upon the audit findings based on the observations made. This report shall be provided within the same day of inspection (Format Attached). 11. Disclaimer:
