

Unboxing the Folding Solar Energy Storage System

How does solarfold work?

Solarfold allows you to generate electricity where it's needed, and where it pays to do so. The innovative and mobile solar container contains 196 PV modules with a maximum nominal power rating of 130kWp, and can be extended with suitable energy storage systems.

How many PV modules are in a solar container?

The innovative and mobile solar container contains 196 PV modules with a maximum nominal power rating of 130kWp, and can be extended with suitable energy storage systems. The lightweight, ecologically-friendly aluminium rail system guarantees a mobile solution with rapid availability. at full power.

What is a solarfold container?

The solarfold Container is an immaculately-detailed and sophisticated plug & play system for a wide range of applications. The mobile drive system consists of a flexible drive unit mounted on traverses and can also be used for other solarfold PV power plants.

How many homes can a solarfold Container Supply?

The on-grid version of the solarfold container is connected directly to the public power grid and can supply up to 40 single-family homes with the energy produced (energy requirement of 3,500 kW/year/single-family house). The solarfold on-grid container can also be expanded with various storage solutions.

What is a solarfold mobile drive system?

The mobile drive system consists of a flexible drive unit mounted on traverses and can also be used for other solarfold PV power plants. On request, the mobile Solar Container can be supplied with the necessary accessories for complete independence. pay-back. Solarfold is far more than just a pioneering means of producing clean electricity.

Why should you choose solarfold for your construction project?

Major construction sites require large volumes of electricity. Solarfold can produce clean and environmentally-sustainable electricity, particularly when immense volumes of energy are needed in inaccessible areas. When construction work is completed, the mobile Solar Container can be taken down and transported to the next project site.
